

Certification of TRIZ Practitioners under MATRIZ Umbrella

Dear colleagues,

Today, MATRIZ sanctioned certification program is a known quality around the world. In the past 15 years, we certified around 26,000 people, on various levels, in 50 countries. Industry giants, such as Samsung, GE, Intel, Siemens, Philips, and many others encourage their associates to study TRIZ and to earn MATRIZ certificate.

Unfortunately, it was brought to my attention that some Regional TRIZ Organizations have fashioned their own certification programs to appear like their certification program is endorsed by MATRIZ. To create this perception, they affix MATRIZ President's signature on their certificates. While we do not reveal the names/locations of these Regional TRIZ Organizations at this time, you know who you are.

Please understand, the Regional TRIZ Organization, found guilty of this type of MATRIZ by-laws violation, will be expelled from the ranks of MATRIZ members immediately. For now, we will contact those, found in violation of the MATRIZ by-laws, for explanation of their behavior and the firm promise not to engage into this type of activities ever again.

Dr. Yu. I. Fedosov, TRIZ Master.

MATRIZ President

A handwritten signature in black ink, appearing to read 'Yu. I. Fedosov'.
