#BharatTRIZutsav® #InventinIndia® #AtmaNirbharBharat

Association for TRIZ and Technical Innovation (ATTI) a regional MATRIZ Association from India has been spear heading TRIZ deployment in India since 2016. ATTI conducts India's annual TRIZ and Technical Innovation conference "Bharat TRIZutsav®" to INSPIRE, Showcase and Promote *Invent in India*® and then Make in India using the structured innovation methodology of TRIZ (Structured Jugaad®).

The vision of ATTI is to make India as an Innovation factory... we are grooming innovation experts in the country and working towards moving India within the top 10 of the Global Innovation Index.

We are fortunate to have the industry leaders like GE and Tata supporting us since 2016 with sponsorship along with MATRIZ. The 5<sup>th</sup> Edition is being sponsored by GE, TVS Motors and Proinn®.

This conference is about showcasing successful TRIZ case studies, on how technology can be developed with new inventions in quick time with strong IPR (patent portfolios) both at system level and at component level... physical and virtual.

We bring TRIZ Masters to share their deep knowledge on new developments in TRIZ methodology and Industry leaders to inspire Indian Professionals to nurture their leadership on technical innovation.

With Proinn®, ATTI has been organizing TRIZ workshops of levels 1, 2 & 3 with MATRIZ certification.

Join this ONLINE conference to experience how technical innovation is building in India with real case studies from Industry leaders and how ATTI is pushing boundaries and pulling innovation as a mainstream profession in India.
