In response to the recent inquiries about various address entries in the MATRIZ database of certified TRIZ practitioners, specialists, and Masters, we state that MATRIZ abides by the guidelines of the United Nations and recognizes People’s Republic of China as ONE CHINA inclusive of Hong Kong, Taiwan, and Macao.

The entries, where Taiwan or Hong Kong were mentioned as the country of residence, will be immediately corrected indicating the country of residence as People’s Republic of China.

MATRIZ is the only International TRIZ Association chartered by TRIZ creator, G. Altshuller, its database includes many thousands of entries, and the ongoing update of the database will be finished in two days.

We apologize for the unintended confusion and misunderstanding with the country of residence entries. MATRIZ is an international organization that works in strict compliance with the trends and guidelines of the United Nations.

MATRIZ President, Dr. Oleg Feygenson, TRIZ Master
